

**Clinician Scientist, Division of Respiriology, Critical Care and Sleep Medicine
Department of Medicine, Saskatoon Health Region**

**UNIVERSITY OF
SASKATCHEWAN**

Posting Date: Jan 23, 2017

Position profile – The Division of Respiriology, Critical Care and Sleep Medicine is seeking a Clinician Scientist to be appointed at the rank of Associate or Full Professor in the Division of Respiriology, Critical Care and Sleep Medicine, department of Medicine, College of Medicine, University of Saskatchewan. The position will have 80% protected researching and teaching component with the remainder of duties dedicated to clinical practice. The position is intended to focus primarily on airways research such as COPD and asthma but consideration will be given to applicants interested in sleep disordered breathing as well.

Location of practice – Saskatoon, Saskatchewan

Qualifications / Requirements of the position – All applicants must be eligible for a medical license with the College of Physicians and Surgeons of Saskatchewan, must hold a Royal College certification in Respiriology and must have an established track record in peer-reviewed funding in their area of research.

The University – The beautiful University of Saskatchewan campus is located on the shores of the South Saskatchewan River in Saskatoon, a city with a diverse and thriving economic base and a vibrant cultural life. The UoS is a research-intensive institution with 22,000 students and 7,000 faculty and staff, and a strong reputation for innovation and excellence. It is home to the newly constructed Academic Health Sciences Complex (<http://library.usask.ca/hsl/new-building.php>), the newly created Respiratory Research Center and two of the largest science projects in the country – the Canadian Light Source synchrotron (www.lightsource.ca) and the Vaccine and Infectious Disease Organization / International Vaccine Centre (www.vido.org). A users group is available for collaborative research with clinical faculty using the \$173.5 million Canadian Light Source synchrotron, owned by the University of Saskatchewan. The College of Medicine has an intake of 100 students per year with a commensurate number of positions for residency training.

The City - Saskatoon Shines - With more hours of sunshine than any other major Canadian city and a population of 255,000, Saskatoon is the largest city in Saskatchewan, offering non-stop entertainment opportunities including world class events, festivals and attractions, a strong arts and music focus, and a short drive to the northern lake country. Saskatoon has more golf courses and restaurants per capita than anywhere in North America and is noted for its outstanding walking and biking trails along the riverbank. Excellent educational facilities such as the University of Saskatchewan, home of the Canadian Light Source synchrotron, draw the best minds from around the world creating a youthful vitality and cultural richness evident in every neighbourhood.

The Region - Saskatoon Health Region is one of the most integrated and complex health delivery agencies in Canada. We are the largest health region in Saskatchewan serving more than 300,000 residents in over 100 cities, towns, and rural municipalities. Saskatoon Health Region is the largest single employer in the province with over 14,000 staff and 1000 physicians across the Region providing a complete range of health services to residents of central and northern Saskatchewan. The city's three acute care hospitals – St. Paul's, City, and Royal University – comprise three of the province's tertiary teaching centres.

To Apply - Saskatoon Health Region and the University of Saskatchewan supports a shared commitment to a Representative Workforce that is respectful and inclusive of all staff and clients and welcomes applications from those who will contribute to the diversity of our community. All qualified candidates are encouraged to apply; however, Canadian citizens and permanent residents will be given priority.

Interested candidates should submit their letter of interest and curriculum vitae to:

Robert Skomro, MD, FRCPC,
